

Attachment 14

Friend of the IWNews Editor

Working for the IWN Journal for the last 4 years has been very interesting and rewarding to me. Together with Priscilla, we have changed the format and the content of the Journal. It is now thematic with many new contributors that treat different aspects of the same theme.

Lea Boergerding from Germany is a member of our editorial committee along with Priscilla and myself. She has an MPhil from Oxford University and has worked as an intern with me in Athens. Lea has helped us a lot to get in contact with Young Feminists as well as with different contributors on a number of themes of our Journal.

We hope that by asking new people to write for our Journal we will make new friends and allies in our fight against gender inequality and the violations of women's human rights. For the above reasons, I would like to be nominated by the post-Congress Board as friend of the IWN Editor Priscilla Todd.
