# “Shaping the World with Feminist Values”

Feminists and women's movements have shaped global norms—from UN Security Council Resolution 1325 on Women, Peace, and Security, to CEDAW's General Recommendation No. 40 on equal and inclusive representation of women in decision-making systems, and the rise of feminist foreign policy frameworks.

Yet today, the growing anti-gender backlash threatens these achievements.

This panel discussion brings together leading voices to explore commitments, challenges, and strategies for promoting feminist action in a contested era.
